

I am writing to express my support for AIR1 in the Riverside, CA region. The station provides a remarkable service to the community and promotes positive messages through alternative music and messages of hope so desperately needed by today's youth. I have personally experienced the power that music can have on young adults and I know the awesome work that AIR1 does to reach out to the community. Without AIR1, a voice of peace and hope will be silenced in the community. I see a number of AIR1 bumper stickers on cars driving around and I know that I am not alone in support of this awesome station. Please protect AIR1.
